# Victor Vungu Nsiangi Claudio

## PROFILE

I am a telecommunications engineering student at UTANGA, third year. I speak four languages fluently. I am passionate in learning and discovering new things in IT and other fields. After my high school conclusion, I earned an internship of two months at Equity bank in Kinshasa that I got thanks to my final grade in high school graduation in 2022. Beside this I work as a freelancer in IT support when family, friends, neighbors and colleagues need me. I can assure you that I can learn fast and adapt myself to the environment and provide good outcomes.
